

## INSIGNIFICANT

**Em** **D**  
**C** **Em**  
Excuse me if your problems seems  
insignificant

**D**  
**Em**  
Excuse me if I'm starin' into space

**D**  
**C** **Em**  
But the gun went off, they're kickin' up the  
dust

**D** **Em**  
I'm runnin' my final race

**Em** **D**  
**C** **Em**  
Wish that I could find the words to strip  
you of your pain

**D**  
**Em**  
Wish that I could offer you some help

**D** **C**  
**Em**  
Wish that I knew how to make sense once  
again

**D** **Em**  
Wish I had a reason myself

**Em** **D**  
A parade at dusk  
**C**

**Em**  
The chrome has turned to rust

**D** **C**  
The street so silent and cold

**Em** **D**  
March till dawn

**C** **Em**  
The clowns will carry on

**D** **Em**  
The secret slowly unfolds

If I didn't hear you I hope you understand  
If your words just passed me by  
There's a poison in my blood, holdin' back  
the flood  
Of tears that don't answer why

Wish that I could tell you how much you  
really mean  
Wish that I could show you my heart

Wish that I could wake up and find it's all a  
dream

Wish that I could play a different part
